

# About Reperio

Reperio is a student programme which empowers Caribbean students to take advantage of present cross-border opportunities among the islands and beyond. Its objective is to create a forum by which all Caribbean students, regardless of language and culture may be able to seize and create opportunities for themselves. In delivering on these objectives, the programme focuses on strengthening relations between students of Trinidad & Tobago and their Caribbean counterparts, through stronger partnerships with educational establishments across the region, and their respective Ministries of Education, Foreign Affairs, Tourism and Culture. This will ultimately result in the facilitation of cultural workshops and exchange programmes.

Reperio is not only multicultural in its approach, but it is also multilingual, so participating students are encouraged to master at least one foreign language. Currently, the programme is trilingual in focus: English, French and Spanish

**Our tour of Cuba takes us to  
Havana, Trinidad and Cienfuegos**

**Havana** is the capital city, largest city, province, major port, and leading commercial centre of Cuba.

**Trinidad** was named a UNESCO world heritage site in 1988 and is a perfectly preserved Spanish colonial settlement.

It was built on huge sugar fortunes amassed in the adjacent Valle de los Ingenios during the early 19th century,

The port city of **Cienfuegos** was founded in 1819 and is one of Cuba's newest settlements, but also one of its most architecturally interesting, a factor that earned it a Unesco World Heritage Site listing in 2005
